

i INFORMATION

New price list

We're preparing new price list which will be valid from 1st May 2017. New price list will reflect the current cost and market trends as we've already informed in the previous newsletter.

You're going to receive new price list in the second half of April.

Cups with calibration marks (filling line) must be CE marked

We'd like to inform you about new regulation in place that states that all cups/glasses/bowls with calibration mark have to include bureau approved CE mark.

Therefore we recommend to only buy cups, which have CE mark at the bottom including year of production (in rectangle, e.g. M16) and 4-digit code of bureau which issued the approval of the CE mark. Otherwise control authorities might issue sanctions.

This new regulation of European Parliament and Council 2014/32/EU is in effect since 04/2016.

New BIO tableware

We are preparing a new line of BIO tableware made from sugarcane.

This new line is going to be in our stock starting end of May 2017.
