LID FOR DRINKING CUPS

Material properties:

Our sugarcane products are waterproof and greaseproof disposable dishes and suitable for microwave heating (up to 100° C, max. 5 minutes). Sugarcane dishes are stylish, light and yet very solid.

Compostability – biodegradable material:

Products are biodegradable, depending on the environment, but under ideal conditions they are degradable within 8–12 weeks without any toxic deposits or heavy metals. They comply with the European standard EN 13432 on compostability.

Method of production - organic product:

The product is made from sugarcane bagasse which is a secondary material and was commonly burned. Up to 50 disposable plates can be made from the rest of one stem of sugarcane.
