### We offer interesting alternatives

Economical or reusable ready-meal trays with lid suitable for microwave oven

## Trays, boxes & bowls (PP)

- perfect for packaging pre-prepared meals
- ideal for microwave re-heating • from -20 °C to +100 °C
- durable & transport-safe for peace of mind

## Tray mounts for heat sealing

- for the 78600 and our split and splitless bowls
- Compatible with most models of heat-sealer, so you can take advantage of our bowl menus with your machine

## Sealing machine for ready-meal trays

- easy, safe and hygienic sealing of the bowl
- compact size to fit your work surface
- Large work surface: 190 x 260 mm

## the BEST for recycling

- made of pure polypropylene (PP)
- food-safe with zero impact on smell and taste
- outperforms PET alternatives

### Ready-meal trays

Samples  
**V0131**

**The professional choice.** Robust, uniform-sized trays, with depth and compartment options, make storage and handling a breeze. Once filled, the trays are hermetically heat-sealed with a special film to prolong the shelf life of the contents, eliminate leakage, and seal each compartment separately from the others.
